

# Personnel did good job

Dear editor,

On March 7, we saw the Grant County Search and Rescue team in action.

A lost hiker was in the rugged canyon country north of Bear Mountain. About 10 cars with Search and Rescue personnel and equipment met on Bear Mountain Road to the north of the mountain after dark.

The Search and Rescue personnel were well-trained, orga-

nized and ready for a night search.

The hiker had the forethought to have matches and built a signal fire. The combination of professionalism by the Search and Rescue personnel and the signal fire soon had the hiker home safe.

Thank you, Search and Rescue personnel.
